EASTERN DATES TO JULY 10

EASTERN STATES

The Baltimore Convention—Doolittle Chosen President—Speeches, etc.

BALTIMORE, July … —The convention … at 12 M. The Committee on Permanent Organization reported Hon J R Doolittle of Wisconsin as permanent president, with vice presidents and secretaries from each State and Territory. The report of the committee was adopted, and the permanent president was escorted to the chair by Senator Bayard of Delaware and … Hoffman of New York. Doolittle was greeted with cheers. He addressed the convention at considerable length, after briefly thanking the convention. His speech was frequently interrupted with applause, especially his allusion to the liberal movement and Greeley, and at the close the speaker was greeted with loud and long continued cheers.

On motion the roll of States was called for the appointment of the Committee on Resolutions, and one delegate from each State selected.

A motion to call on the Territories for one member of the Committee on Resolutions and Preamble was discussed briefly and finally tabled.

On motion it was ordered that all resolutions pertaining to the platform to be adopted be referred without reading or debate to the Committee on Resolutions.

The report of the Committee on Credentials was received, showing 732 delegates present, and all the States had full delegations with no contestants. Delegations were also present from the Territories, and the committee recommended that they be allowed seats without votes. The report was adopted.

A motion to adjourn till 10 to-morrow was lost. A motion that when the convention adjourned it be till 10 o'clock to-morrow was carried.

The roll of States was then called for the purpose of naming members of the National Executive Committee. The member for Oregon is R J Ladd, California E M Cheen …

A motion was made to proceed to nominate one, but a motion was made to adjourn, which was carried and the convention adjourned till 10 o'clock to-morrow.

A large number of resolutions were offered by various delegates and referred under the rules to the Committee on Resolutions.

Suicide at Washington

WASHINGTON, July … George Terr… a clerk in the War Department, committed suicide this morning by cutting a gash in his wr… with a razor and bleeding to death.

Further Testimony in Stokes' Case

NEW YORK, July … In Stokes' trial Dr … han on further cross examination claimed that Fisk had symptoms of peritonitis, and that he could not receive a wound without shock. He did not know enough of the case to be able to give an opinion as to the cause of Fisk's death.

Abraham Jacobi testified that in his opinion Fisk's death was caused by the use of morphine or some other poison.

The stenographer who reported the evidence before the Coroner's inquest swore to the correctness of his notes.

The Court then adjourned.

A Cuban Privateer in Newport Harbor

NEWPORT, R I, July 9.—Last evening, as the Revenue Cutter *Mohawsen*, stationed at this port, was on a cruise to Block Island, and when off Point Judith, she sighted a suspicious looking craft. Upon laying to and speaking her she found it was the Cuban privateer *Pioneer*, formerly the U S Cutter *Resolute*, which had been sold a short time since to Cuban parties. The Captain of the Cutter ordered her commander aboard, who said he was a Lieut Commander in the Cuban navy. The schooner was brought into port, and this morning the Cuban flag was flying at her mast head. Her crew consists of four officers and sixteen men. The vessel is heavily armed with two twenty pound parrott guns and one eighteen pound French gun, with a large lot of ball and arms, with ammunition and provision for a long cruise.

Great Trotting Race

NEW YORK, July 9.—The great trot for a purse of $6,000 between Goldsmith Maid and Lucy … American Girl and Henry this afternoon at Fleetwood Park was witnessed by 1,000 persons. The race was won by American Girl in three straight heats; time 2:21, 2:19½, 2:24. The Maid was withdrawn after the second heat, having cut herself.

Louisiana Politics

NEW ORLEANS, July 9.—The Democratic and Reform State Central Committees have united upon a State ticket headed by John McEnery for Governor, who was the nominee of the late Democratic State Convention.

From Nassau

NASSAU, July … The monument of the great German statesman Stein was unveiled here to-day in the presence of the Emperor and Empress of Germany and other dignitaries of the country and vast crowds of people from all parts of Europe. The United States Minister addressed the people, giving the history and career of Stein.

MEXICO

State of Affairs

CITY OF MEXICO, July 1.—The revolution continues.

Assassinations and kidnapping are prevalent everywhere.

The journals are filled with complaints against government usurpation.

Mariscal, Mexican Minister to the United States, will probably go to Washington on the 15th. Minister Nelson will sail for New York on the same day and will not return again in an official capacity.

General Rosecrans publishes a manifesto in several Mexican journals against attacking the projected railroad enterprise and complaining that in spite of his known pride for Mexico and Mexicans there is nobody to defend him. He appeals to their patriotism, honor and generosity to take the matter of the railroad again under consideration.

Gigantic Railroad Scheme

From the St Paul Press.

The New York, Chicago Air Line Railroad Company, which it will be remembered recently applied to Congress for a charter and unusual privileges, now appears under the title of Continental Railway Company, though with a change of promoters. The articles of incorporation, which have been filed in the office of the Secretary of State of Indiana, put the capital stock at the snug sum of $100,000,000. The Continental Railway Company proposes to consolidate with other local companies in the various States, and particularly with the New York Western Railway Company, for building a Grand Trunk line from New York to Council Bluffs, Iowa, with connecting branches to cities in other States. The local auxiliary organizations in each State, which are to have separate officers responsible, of course, to the chief managers, are to be entrusted with the execution of the plans and contracts of the central board of eighteen directors. There is also to be an advisory board in England, under the name of the London board of the Continental Railway.

So far the only person of financial prominence connected with the gigantic enterprise is Mr Edward Dodge, of the firm of Jay Cooke & Co. Considering that it is but a few years since all the leading trunk lines of railroads leading to the East were bankrupt for lack of business, that within three or four years several new land and water routes of transportation have been opened, and that still another, called the Canada Southern, is now making rapid progress, the present project seems wild to the last degree. But the development of the West is so rapid and the possibilities of traffic are so apparently illimitable that what seems a foolhardy project to-day may become a public necessity next year. There is no immediate prospect of a speedy completion of this great undertaking, as without the active co-operation of numerous heavy capitalists in this and other countries the immense sum necessary cannot, in the absence of land grants or bonuses of any kind, be procured; and it may well be doubted whether, in addition to other vast expenditures now making in railroads all over this country, $100,000,000 could easily be spared from the world's accumulations for permanent investment in a new line which would from the start have numerous and established competitors.

While, in course of time, many more railroads will doubtless be needed between the East and the West than are now in use or in progress, we are sure that the West must in the future look to water transportation as the great channel of traffic for produce going abroad, as well as for merchandise coming in, and as the omnipotent regulator of carrying charges. The great lakes and their outlets, both natural and artificial, were intended to be the great highway of the West, and they cannot long be made the instrument of consolidated monopoly as can railroads, however numerous they may be. With an enlargement of the Welland and St Lawrence canals, such as is decided upon by the Canadian Government, American trunk railroads, whether few or great in number, will be compelled to do a grain transportation business, if they do it at all, at the lowest possible rates. It is more than probable that in a few years railroads will do but a small proportion of the heavy carrying business between the East and the Northeast, or even with that portion of the West naturally tributary to the lakes, and that New York will no longer control Western business, either outward or inward bound. The lakes and the enlarged canals will help the West to her independence of the old arbitrary shackle.

The U I & M R R

The work of construction of the Utah, Idaho and Montana Railroad—that great highway which is to open a system of railroad communication in the three wealthiest of the Territories of the great Northwest, and connecting link between the grand trans-continental trunk lines—has been commenced, and ere the hills are again covered with the winter snows a good portion of it will have been completed. Although not situated immediately upon the line of this most important road, we cannot fail to be highly benefitted by it, giving as it will increased facilities for transportation and transit to all portions of the Territory, and aiding by the introduction of a great system of inter-communication in the development of the illimitable resources of Montana, and by placing us in immediate connection with a powerful competitor with the Northern Pacific for the Montana trade, materially lessen the chances of the people being left in the power of an unopposed monopoly. Every tie imbedded and every track laid toward Montana marks a giant stride in the footprints of her progress, and with the North Pacific road traversing its domain, and its great southern competitor within easy traveling distance, and both urging and encouraging the construction of auxiliary lines, who can falter in their faith that the dawn of a brilliant era of prosperity is breaking on the near future of our Territory? We bid the Utah, Idaho and Montana Railroad a hearty God speed.—*… and Courier.*

THE WRONG TEUTON.—I had quite a laugh in the park the other day. Not far from where I was lounging, a gentleman was promenading, accompanied by a magnificent greyhound, and while just in advance of him walked a well known dandy. The gentleman called "Bruno, Bruno." The dandy stopped and looked around, but not knowing the gentleman, quickly resumed his walk. Again the gentleman called "Herr Bruno, come here." Upon this the dandy turned and angrily demanded:

"What is your pleasure, sir?"
"With you, nothing."
"Then how dare you, not knowing me, thus address me on a public promenade?"
"Pray, sir, if I may ask, what is your name?"
"How, sir? Do you wish to insult me?"
"But will you please give me your name?" gently pleaded the owner of the greyhound.
"There is my card, sir," and the dandy handed forth a slip of pasteboard.
"Why," said the gentleman, reading aloud the inscription, "this is Brann; my dog spells his name without the a, Bruno."

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Baltimore Convention—Second Day's Proceedings

BALTIMORE, July 10.—The National Democratic Convention re-assembled at 10 o'clock this morning.

Mr Barr of Connecticut announced that the Committee on Resolutions were ready to report. They recommended the adoption of the resolutions already adopted by the Liberal Republican Convention at Cincinnati. In order that there might be no misapprehension as to these resolutions Mr Barr called for their reading in full to the Convention, which was done, each plank in the platform being received with applause, the one term plank especially.

Mr Barr explained that the platform was adopted in Committee by all the States except Delaware, Mississippi, Georgia and Oregon. He moved the adoption of the report and on that moved the previous question. Mr Bayard of Delaware inquired whether the "previous question," another name for "gag law," had become a law of Democratic Conventions, without notice to Delegates. The Chair said the Convention had adopted the rules of the House of Representatives, and so the motion of Mr Barr was in order.

Vain Appeal

Various gentlemen appealed for a withdrawal of the motion in order to give a chance for a short debate.

Mr Barr said he felt compelled to decline a discussion and would call for the question on debate.

A call of States was ordered, and it resulted as follows: Yeas 5…3, nays 176.

The chair announced that Mr Barr was entitled to one hour to discuss the resolution, and Mr Bayard of Delaware appealed for ten minutes time. Mr Barr granted the request, and Mr Bayard proceeded to address the Convention. He said he hoped the great Democratic organization would be allowed to have an independent expression of its own honest sentiments. [Cheers.] Why take cut and dried resolutions passed by other organizations? He denounced the attempt to force upon the Convention the opinions of others not chosen by Democrats.

Anything to Beat Grant

Mr O'Conor regretted that any difference of opinion should prevail. All other issues should be merged into a single one with a view to defeat the re-election of the present administration.

Judge Reagan of Texas appealed for a union upon the Cincinnati platform with all honest opponents of the administration.

Mr Barksdale of Mississippi wanted a division of the vote on each separate resolution. Great and loud objections were made.

More Gag Law

Mr McRae of Tennessee secured the floor and protested excitedly against cutting off debate, but was cried down.

Roll was called on the question of the adoption of the platform and resulted as follows: Yeas, 602; nays, 70.

When Alabama voted no there were loud hisses. The Chair appealed to the Convention to treat with proper respect the vote of any and every State.

Short, of Alabama, on leave said the resolutions contained some statements which some of his delegation could not endorse without explanation. He therefore changed Alabama from twelve ayes to eight noes.

The Nomination of Greeley.

A motion for roll call of States for vote on candidates for President and Vice President was made. Hogman, of New York, presented a petition from 15,000 Germans of New York, which was read by the secretary. It recommended the nomination of Greeley and Brown, and expressed the belief that they will receive the hearty support of Germans, regardless of party affiliations, as the best nominations that can be made. Greeley and Brown were nominated on the first ballot unanimously. The nomination of Horace Greeley as Democratic candidate for President, was followed by enthusiastic cheering. The roll was called on Presidential nomination. The first ballot resulted as follows: Greeley, 686; Jas Bayard 15; J S Black 21; Groesbeck, 2. Greeley's nomination was made unanimous. Each vote for Greeley was received with cheers, and when Hoffman announced the vote of New York, three cheers were given. When the confusion subsided Hoffman said she would dispute Missouri's promise to give the largest majority of any State, and give him a majority larger than Missouri in the local New York city vote. He expressed regret that there should have been a division of the vote of the convention. He knew those who opposed Greeley were conscientious, but he appealed to them to forget prejudice and personal preferences, and a motion to make the nomination unanimous was made by Wallace, of Pennsylvania, and it was carried amid wild cheers and playing of bands.

Of the sixteen votes given Bayard on the formal ballot, nine were from New Jersey and six from Delaware. Pennsylvania gave Black twenty one. West Virginia gave Groesbeck two. Georgia cast four and Pennsylvania two blank votes.

Nomination of Brown.

The roll was then called on the nomination of a Vice President, resulting as follows: Brown, … ; Stevenson, of Kentucky, 6; blank, 13. On motion of Chalmers, of Mississippi, the nomination was made unanimous.

A resolution for the appointment of a committee of one from each State, headed by the President of the Convention, to notify the candidates of their nomination, was agreed to.

A resolution was also adopted that the Convention, upon adjourning, escort the New York and Missouri delegates with music.

A resolution was adopted leaving the place of the next Convention to be decided by the National Executive Committee.

Usual resolutions of thanks were adopted, and the Convention at 1:30 P M adjourned sine die.

New York News.

NEW YORK, July 10.—The election of new officers for the Erie road, yesterday, will result in that road working hereafter in conjunction with the Atlantic and Great Western.

The *Standard* was suspended temporarily to-day.

The testimony in the Stokes case has been mostly medical to-day. Stokes' mother and brother testified as to Stokes carrying a pistol to protect himself from Fisk.

UTAH

From Salt Lake City

SALT LAKE CITY, July 10.—David Smith, youngest son of Joe Smith the Mormon Prophet, lectures to-night against polygamy. His presence excites the present church authorities but little.

The Mormon portion of the community endorse Greeley's nomination.

Experts report that both the English and Illinois mines contain large bodies of rich ore.

The Vallejo mine, located between the Emma and Flagstaff in Little Cottonwood district, has produced a large deposit of ore similar to the Emma at a depth of … feet.

CALIFORNIA

From San Francisco

SAN FRANCISCO, July 10.—Tide lands sold to-day at prices ranging from $… to $350 per lot. The average price was very low; in fact but a mere fraction of what was realized for similar locations two years since.

Stocks are very active to-day. In the morning Board sales amounted to … shares. At the afternoon Board … shares. Total 21,581 shares … the open Board … Pioche was heavy, dealing up $44 and closing at $…

Edith O'Gorman, the escaped nun, and her male companion are said to have left the city rather unexpectedly.

Grand Marshal Cole managed the Fourth of July celebration so economically as to pay all bills out of the small contribution raised to pay off the $500 indebtedness incurred by his predecessor last year.

Over one hundred persons holding property in the vicinity of Second street have been sued for their assessments since the Supreme Court reversed the decision of Judge McKinstry and declared the Dupont Street Bill for the full cost of improving their property.

Negroes have applied at all the public schools … for the admission of the children on … and being refused will bring suit by mandamus to test the right to exclude them.

The unanimous nomination of Greeley and Brown caused some little stir here to-day, under the expectation that there would be a much stronger opposition and a bolt having been confidently indulged in by many. The *Bulletin* says this action insures a close contest, and the sooner Republican leaders make up their mind to that fact the better.

The *Examiner*, after a bitter opposition until to-day, hoists the names of Greeley and Brown, indorses the ticket and platform and predicts success.

The committee of one hundred held a long, stormy and not very orderly session this afternoon.

The first section of McRuer's resolution was adopted by a vote of 85 to 7, as follows:

Resolved, That in the present exigency of our affairs, the interest and future prosperity of our city demand that this Committee of 100 should, with the unanimity of purpose adopt as our policy first that the speedy construction of the thirty fifth parallel railroad substantially on the basis of the arrangement made by Messrs Sneath, Hopkins and Hager, is the most practicable and speediest mode of relieving this community from the present state of uncertainty, and will settle the whole question of San Francisco being the terminus of all railroads tending to the Pacific coast.

Several substitutes and amendments for the second resolution condemning any further concessions to the Central Pacific railroad under the guise of compromise, were offered and pending their discussion, the meeting adjourned to Friday afternoon.

SAN FRANCISCO, July 10.—Arrived—The ship *Lady Carnes*, Liverpool.

In the case of Carr, who killed his wife at Mission Dolores, the Coroner concluded the inquest this evening. It was shown that the trouble in the family all grew out of hatred and jealousy manifested by Mrs Carr for the orphan girl Lizzie Haley, and while there is no reason to doubt that the conduct of the girl was irreproachable, the evidence indicates rather strongly that Carr was at least extremely partial to her. The jury rendered a verdict of wilful murder.

The Democratic and Liberal ratification meeting will probably not take place before next week.

The Orangemen and the American Protestant Association propose to have a procession here on the 12th, and the Chief of Police has made arrangements to prevent any breach of the peace, if any shall be threatened. The number of men who would turn out in such a procession in San Francisco must be extremely small in any event.

Large numbers of tickets have been sold for Matilda Heron's benefit at Platt's Hall to-morrow evening. It is a fact that she is in actual want, and her friends are taking an active interest in her behalf.

Lester L. Robinson sues the California Mutual Life Insurance Company for $10,000, amount of insurance on the life of F L A Pioche. The demand for payment is resisted on the ground of suicide, but the plaintiff claims that deceased did not commit suicide, at least within the meaning and intent of the language of the policy.

INTERIOR CALIFORNIA DISPATCHES.

VALLEJO, July 10.—The ship *Evelyn* left to-day with 400 tons of wheat, bound for Liverpool.

The steam dredger is at work dredging the water around the railroad wharf in order to accommodate ships of the largest class.

WATSONVILLE, July 10.—A little son of Mr. Magill was accidentally shot in the stomach last evening by the careless handling of a derringer in the hands of another boy. He is still alive, though the wound is considered dangerous.

GILROY, July 10.—A salute of 50 guns was fired in honor of the nomination of Greeley.

YREKA, July 10.—Williams, the escaped murderer, after hiding six days in the mountains, gave himself up to the authorities on Monday night. Unless sentence be commuted he will be executed on the 26th inst.

LOS ANGELES, July 10.—Preparations are making for the ratification of the nomination of Greeley and Brown to-night.

Eight hours steady rain at Anaheim and vicinity last night.

Twenty three tons of rich silver rock from Wallapai district was received for San Francisco.

A practical test of lately discovered peat was made to-day in the locomotive on the Los Angeles and San Pedro Railroad.

POLITICAL NOTES

One Tennessee county has nineteen candidates for tax collector.

A Delaware Democratic paper admits that the nomination of Greeley at Baltimore "will be a heavy blow to the prospects of carrying Delaware for the Democratic ticket."

Boston had a big Grant and Wilson ratification meeting the other night, at which Gov Geary, of Pennsylvania, promised 30,000 majority in his State for the National ticket in November, and he was not far wrong either.

Expecting to be Vice President, B Gratz Brown talks of resigning the Governorship of Missouri. Don't count your chickens before they are hatched, B Gratz! Remember a bird in the hand is worth two in the bush.

The Albany *Journal* says that two unsuccessful attempts have been made to get up a Greeley Convention in Rensselaer county. On the 4th it was postponed to the 20th, and the same individual, and no other, appeared as on the 5th. He didn't deem it worth while to issue another call.

That most venerable of sea-fossils, ex-Secretary Gideon Welles, of Connecticut, has written a letter on the Presidential situation. He says that it would be difficult to find a more disagreeable or objectionable man than Horace Greeley, but he prefers him to Grant. He likes rotten eggs for supper, does this antiquated fossil.

John P Jones, Wm Sharon and Jas W Nye are Republican aspirants for the United States Senate in Nevada. Thos H Williams and John Garber are willing to go if the Democrats carry the State. Jim Nye hopes to slip in by luck as a compromise candidate. Storey county, in which lies Virginia City, will be the stronghold of the campaign. Whoever carries that county at the primaries will be Senator.

It is reported that the former Union wing of the Democratic party has retired from the business of managing the party in California and given it over into the hands of the old secession or conservative or bourbon wing of the party. This wing it was that engineered the last Convention and appointed the delegates to Baltimore. It is supposed to be the purpose of this wing to fuse with the Liberal Republicans on such terms as to elect W M Gwin to the U S Senate, to succeed Mr Cole, in case the fusionists control the next Legislature, and Mr Greeley becomes President. In short it is said that the coalition means to give California over to the old Southern Democracy, and to allow the Liberal Republicans to have all the national offices they can get. It is consoling to observe what heroic struggles these parties are making to be … up their politics.

A fine quarry of lithographic stone has just been discovered in Kentucky on the line of the Lexington and Big Sandy Railroad. There is but one other similar quarry in the world.

The Daily Oregonian.

[illegible]SDAY MORNING [illegible]

The Democratic Candidate

[illegible] everything [illegible] has [illegible] has been [illegible] this [illegible] poles [illegible] and aspirat[illegible] the political [illegible] as a leader [illegible] ways advocating concentration of power in the hands of a central government and insisting with more pertinacity than any man of note in these latter times on all means to consolidate the authority and increase the powers of the Government. [illegible] he is now the recognized head of that political organization whose [illegible] principle has always been State rights. State sovereignty and decentralization. Having devoted his whole life to preaching a radically different theory of government from that held by Democracy he is now taken as a Democratic candidate for the Chief Magistracy of the country. He has let no opportunity escape which could enable him to insist on his favorite theory of augmenting the powers of the General Government and stripping the States of rights and powers which have been always claimed for them under Democratic policy. He has always insisted on reducing rights and prerogatives of the States to the minimum and enlarging to the fullest possible extent the authority and powers of the National Government. He has been the most prominent advocate of those changes in the Constitution and those measures of legislation which the Democracy have told us were utterly subversive of our Republican forms and institutions. In short, in the great contest to fix the rightful proportions of State and National power, Greeley has been a persistent advocate of centralization. he has opposed the Democratic party upon its fundamental principles, and has devoted the labors of his life to tearing up by the roots the ideas and doctrines for which alone that party has maintained an existence and an organization. Yet that party now accepts him as its leader and champion. So complete a subjugation of a political party was never witnessed in America. This is one of the astonishing results of continued political adversity; yet rarely has adversity led to such an amazing consequence.

To the masses of the Democratic party who have sincere political convictions the result of habit, training, tradition and history the nomination of Greeley will simply be astounding. Blank dismay will be everywhere visible. They cannot change their position with the facility of the trading politicians, by whom they have been placed in a situation at once pitiable and ludicrous. Their party having abandoned all the distinctive principles which have made it a party, they will be free to vote as they think fit, or not to vote at all. That many who have been Democrats heretofore but who can be Democrats no longer because the old party has quit its historical camping grounds and has moved under new guides to strange positions will vote for Grant need not be doubted. That still more will decline to vote at all is absolutely certain. Every reason why they should act as Democrats and vote as Democrats, has been destroyed. In 1852 when the Whig party attempted to go over to Democratic ground, it perished. So now the Democratic party, having abandoned its own ideas and positions and made an attempt to get, substantially upon the ground occupied by the Republican party will meet a like fate. It is agreed among all men that when two attempt to ride the same horse one *must* ride behind. The Republican party is securely mounted and in the saddle. The Democratic party resolves [illegible] to ride the same horse. It could learn wisdom even from Dogberry who could assure it that [illegible] persists in this endeavor its fate will be to ride on the crupper.

A State rights party, the Democracy accept as their leader the most persistent and noted advocate of centralized power in the United States. A free trade party they fall in under the banner of the most resolute protectionist in the Union. Opposed to the legislation of Congress for the suppression of the Ku Klux and the regulation of elections they take for their leader and guide the man who most loudly demanded this legislation before its enactment and who after its enactment defended it most vigorously and expressed unbounded satisfaction with its results. The Convention at Baltimore has taken a position which sets the seal of condemnation on the whole career of the party. It admits that [illegible] was wrong in 1860 and has been wrong ever since. It cuts loose from the principles of Jefferson to which it has hitherto [illegible] and abandons all that has made it the Democratic party of history. It has given up all its cherished ideas and has no longer an individuality. The time has been that when the brains were out the man [illegible] political party would [illegible] and that time will [illegible] again. It needs not long to wait for [illegible]

It is an approved Democratic [illegible] to justify one calumny by inventing another. To our observation that [illegible] Grant has received no presents since he became President and that in accepting what was tendered by his countrymen while he was General of the Army he did nothing more than McClellan who was afterwards nominated and supported for the Presidency by the Democratic party, the *Herald* replies that "since Grant [illegible] President Tom Murphy gave him a cottage at Long Branch and Grant [illegible] made Murphy Collector of the Port of New York. Also that a man named Jones made Grant a present of a lot in Chicago and Grant made him a foreign minister." All these charges are the venom of falsehood. Mr. [illegible] never presented to Grant a cottage at Long Branch or anything else. The cottage [illegible] Branch was purchased by Grant [illegible] of money which he obtained [illegible] house which [illegible] him [illegible] had a man [illegible] Grant any [illegible] possessed [illegible] [illegible] boods be [illegible]

W [illegible] Gates [illegible]

now agitating [illegible] Which [illegible] Wilson.

Concerning Honesty

[illegible] fell out with [illegible] ago about the distribution of [illegible] patronage of New York [illegible] Mr Greeley has always been spoken of by the Democratic party as the incarnate [illegible] A year ago the *Herald* [illegible] has applied the epithet [illegible] the eternal devil.

Greeley says the *Herald* [illegible] is available therefore he was nominated. Grant it declares was nominated for availability too. And if Greeley has not been a Democrat neither was Grant before his first nomination a Republican.

This is not a candid statement. Grant though not a politician was in full sympathy with the aims and objects of the Republican party. He fought through the war and brought the war to a close on Republican principles. It was the Republican party that sustained him and enabled him to triumph. Grant has stood firmly by Republican policy on questions of reconstruction and had opposed the madness of Andrew Johnson. Grant represented the triumphant majesty of the nation in its victory for Union and peace and it was but natural that the party of national principles should nominate him for the Presidency.

But the Democratic party in nominating Greeley stultifies itself beyond expression. He has never been in sympathy with any of its ideas or objects. No man has fought it so fiercely. He has warred against it for forty years on the fundamental principles of its existence. He has opposed it not merely on questions of policy, but has endeavored to annihilate the very basis of its creed. The echoes of his last efforts in this direction have not yet died out. The ink is scarcely dry with which his last articles were written. There is no resemblance whatever between his nomination under these circumstances by the Democrats and the nomination of Grant in 1868 by the Republicans.

Mr Greeley's honesty is much vaunted. He is probably about as honest as the Democratic party which is not saying the best thing that can be said for a man.

The Lion of Linn Lafayette Lane son of ancient Joseph and the jocular Col Gates will now be called upon we presume to champion the cause of the Chappaqua sage so called or resign the candidacy for Presidential Electors in this State. Helm it is thought can steer in any direction. It is a long Lane that has no turn and of course Lafayette can abandon his former profession of adherence to State Rights, hatred of Greeley etc, and make the curve while Gates, it is supposed, will claim to be always open. Out of courtesy to J W Jasper J one of these gentlemen ought to resign and give him a chance to carry the thing through. Jasper is now the head of the Democratic party in Oregon.

THE TERRITORIES

The Montana Penitentiary contains twenty one convicts.

Dayton in Walla Walla county is to have a Woolen Mill. It is being built.

A Bohemian named Meng was drowned in the Missouri near Yankton on the 2d inst.

A land office has been established at Yankton Dakota Territory. George H Hand Esq is the Register.

Charles S Hopkins was murdered by Indians near Fort Bascom New Mexico on the 11th of June last.

Some Californians have purchased the El Dorado silver lode at Jefferson City Montana Territory for $15,000.

New diggings prospecting from eight to ten dollars a day have recently been discovered between Oro Fino and Silver Bow.

The boats come and go at all hours at Olympia without observing any sort of schedule time, causing a very serious growl by some of the Sound papers.

The grasshoppers in Big Hole and Jefferson Valleys are eating everything green that comes in their way and crops are suffering greatly from their depredations.

[illegible] Bush of Walla Walla has lately brought from Canada 40 head of Cotswold sheep which are said to be the finest stock of the kind ever brought to this country.

The celebration of the Fourth at Walla Walla was the best ever seen in the place. The oration by Judge J R Lewis was an able effort and reflected credit on the orator.

Hon William H Claggett who has represented Montana in Congress during the past session of Congress declines a renomination and proposes to resume the practice of law.

Rev Father Man[illegible] late of Vancouver has been sent to Port Townsend by the Bishop of Vancouver to take charge of the interests of the Catholic Church in that section of the country.

The question of cutting timber on Government lands in Washington Territory has been partially settled by a permit given to those who have heretofore [illegible] to pay [illegible] per thousand stumpage for timber cut.

The application for a daily mail between Walla Walla and Lewiston has met with a favorable reception at Washington and as soon as arrangements can be made by the contractor the service will be commenced.

The *Sentinel* La Grande says lots in Auburn which a short time ago could have been bought for a song, have quadrupled in price, which means that they would now bring four songs.

Wallowa Valley lying directly east of Grand Ronde in Eastern Oregon is just now attracting considerable attention. The editor of the *Sentinel* who has explored it describes it as being a sort of Paradise of a place.

Mr F A Warren living one half mile east of Hillsboro while hauling in hay on last Tuesday was caught between the hay rack and barn and badly crushed. It is feared that he has sustained severe internal injuries.

A white man near Auburn name unknown found two Indians quarreling last Thursday and interfered when one of the Indians drew a knife, whereupon the white man shot him with a revolver giving him a mortal wound.

The people living near the Dairy Creek bridge between Hillsboro and Cornelius have been haunted for several days by the ghost of a Chinaman. He spends his time on the bridge howling and giving vent to strange and heathenish mutterings to the rural Webfoot unintelligible.

The *Mountain Sentinel* gives an account of the discovery of a gold mine near Auburn Baker county, and claims that it is the richest in gold ever discovered on the coast. In brief the ordinary quartz from the lode yields $800 to the ton but it is the pockets in the same where the riches come in. In one pocket the discoverer Mr White, secured $4 000 of the precious stuff in four days, and others have been struck much richer. Mr Stacy, a reliable gentleman of Auburn who visited the mines states that he saw nuggets two inches in diameter. Mr White has four men employed in guarding his mine of treasure and no person but those well and favorably known can even visit it. In consequence of this extraordinary discovery property in the town of Auburn has taken a sudden rise and lots and houses which a week ago could have been bought for a song have quadrupled in price. Capt Ainsworth is said to be the principal owner of this wonderfully rich mine.

BOTTOM OF THE SEA.—Explorations of the most careful kind have established the fact that hills dales ravines and mountains characterize the bottoms of oceans and seas. Five miles perpendicular depth prove there must be some excessively dark gloomy places. But even there life abounds. Strange forms are brought up by sounding. There seems to be no waste place on the globe since animal and vegetable lives are everywhere fitted precisely to those obscure localities where they are found. On the highest peak of the Andes, the Cordilleras Mount Lebanon or the lofty ranges of India marine shells abound. They were elevated from profound depths in primitive seas, on the mud and debris of a vastly remote period, to their present position. Marine shells therefore on mountain tops, are chronological evidences of the mighty revolutions through which the earth has passed. The remains of curious things in art the fabrication of human hands many of which will resist the corroding influence of time may yet be lifted out of the deep to be inspected miles above the level of future seas, as marine shells are inspected by travelers who in their investigations wonder how they came there.

It is estimated that in the State of Minnesota alone the Government loses $300 000 annually in the pre-emption of timber land by men who have no purpose of settlement and who retain the land only long enough to cut off the timber, when they abandon it and pre empt new tracts.

One firm at Quincy Ill is prepared to contract for 30 000 bushels of tomatoes and 150 acres of cucumbers to be delivered this year, which quantity they intend to pickle.

THURSDAY MORNING JULY [illegible] 1872

CITY.

THREE ... in the h... thought ha... e ... mail matter ... from San Fran... was an important epoch. In ... California and Oregon ... and went int... as they are now ... tainly a great improvement ... the former ... facilities ... the stage ... the Pony Express ... in turn has measurably been superseded by that much more rapid and tireless agency —steam. The steed of flesh, blood and bones has given place to the iron horse which now dashes through the valley, over hills and across dale with a speed that never slackens and a nerve which never wearies. In the progress of this State change has followed change in rapid succession and one improvement has given place to another. Since the railroad era has been inaugurated in Oregon the time required for mails to reach us from California has been slowly but constantly decreased. Each league of railroad constructed has contributed toward the annihilation of time and distance against which the progressive tendencies of the age have and are still warring. In times past and not very remote either the people of the State and this city especially have been compelled to suffer many delays and inconveniences in consequence of mail irregularities but we are gratified to announce that arrangements have been effected between the stage and railroad companies by which these irregularities can be remedied and the time very materially reduced.

A dispatch was received in this city yesterday from Oakland in which it was stated that the mail had reached there in three days from San Francisco. This mail arrived here yesterday evening fifteen minutes past four o'clock thus making the entire distance between San Francisco and Portland inside of three days and nine hours. Now this is crowding things pretty ...y, and ought to effectually silence all growls about "slow time" and our mail irregularities. Col. E S Hooker Superintendent of the California and Oregon Stage Company, is now in this city. The present reduction of the usual mail time is in a great measure attributable to his enterprise, efforts and labors. We learn that it is his intention to use every means at his command to keep up time as it now exists.

"FROSTY."—The Portland public have certainly not forgotten Mrs J B Frost, who was lecturing through the State last fall. It is also fair to ... that the people of Victoria have occasion to remember the same lady for sundry reasons—principally financial. Speaking of this lecturess, a San Francisco exchange says: "What this lady does not know about railroading is not worth knowing. When she arrived in town week before last, she frankly admitted she was not prepared to lecture on that subject as she had not then given it attention. Since then she has turned the full powers of her mature mind upon this subject and need we say that she has mastered it? With a public spirit possessed only by professional ...ers, she immediately made arrangements to ... her newly acquired knowledge to the public, at fifty cents a head. Somehow the public did not avail themselves of this opportunity to become wise. M'lle Aimee was playing at the California and Joe Murphy at the Metropolitan and a heedless, laughter-loving public crowded these houses and left Mrs Frost in wintry desolation. The lady, however, went on with her talk. She demonstrated the value of railroads in giving value to land otherwise worthless. The lecturer ... had a few hundred acres near Los Angeles which would be valuable if San Francisco would build the Atlantic and Pacific Railroad. Hence therefore, it was wise policy on the part of San Francisco to build the road. We are not informed if Mrs Frost intends to lecture again, but venture the assertion that if the Committee of One Hundred, or any other committee, will secure a hall and haul in an audience, the fair lecturer will repeat all she knows about railroads."

FINE SCENERY.—Our Hillsboro correspondent who certainly has an eye for the beautiful and sublime in nature, and a soul to appreciate its charms, has furnished the following: The most beautiful scenery to be met with anywhere is on: on the west side railroad. After the road leaves the Beaverton Station it runs in an air line to Rock Creek, a distance of eight miles. Taking a stand on the Rock Creek embankment the road stretches away through a forest of fir and oak out through a small prairie, through another stretch of timber, out again through another prairie, and dives again into another forest seemingly losing itself at the base of Mount Hood, which rises majestically above all else, her snow ...ed head glittering and flashing beneath a July sun. At the base the green forest seems to weave an endless wreath around it, a little higher up the white field of snow is revealed in a thousand fantastical forms. Still higher up a portion of the side and entire summit stands out in bold relief, nothing beyond or above but the blue vault of heaven. Quite a number of persons have visited this spot to witness the grand and beautiful in nature.

SERENADERS.—The devout worshippers of Joss have been rendering night hideous during the present week in offering up their sincere ablutions to the pious sound of the tom tom and fuzzy guzzy. Added to this, we have had several calls from feline serenaders. But it would appear, if reports are to be credited, that a still greater ... infliction is in store for the patient and long suffering. The young bloods around town who have secured long credit on their spring suits are now saving up their money to purchase guitars. It would make a prosecuting attorney laugh to hear these chaps pulling away for dear life on the strings these nights about midnight, and warbling dulcet melodies that sound like a poll parrot on a strike for better food. The young nightingale who whoops up "My Pretty Jane" and "'Tis Moonlight's Sweetest Hour," on the ... almost nightly will hear of something to his advantage if he wakes "Pretty Jane's" male parent up some night. How long, oh Lord how long shall we suffer? Until we cultivate music in our souls?

TO CORNELIUS.—The Sabbath school picnic given yesterday to Cornelius, by the scholars connected with the First Presbyterian church was a very pleasant affair and quite largely attended. Early in the morning the cars halted at the corner of Fourth and Washington streets when the little folks, young misses, parents and friends all dressed in picnic attire, had assembled to await the arrival of the outward bound train. About half past eight o'clock the cars started for Cornelius, with its precious freight of humanity. The day was passed on the picnic grounds adjacent to Cornelius, in swinging, romping, childish innocent sports on the green and lunching. Quite late in the evening the train returned to the city all the excursionists well satisfied with the day's pleasure spent in the "rural districts."

STRANGE!—"Truth is stranger than fiction" it is said but fiction travels faster than truth. Some weeks ago we published an account about the finding of some old Spanish coin by a party of surveyors while running a line between Cornelius and Astoria. Now comes the New York T... and tells the story thusly: "Railroad engineers between Astoria and Cornelius Oregon noticing some marks on rocks, made an investigation and found a box containing $5 100 old Spanish coin and a quantity of jewelry."

ELECTED.—At a recent election held of Oregon Lodge No 65, I O B B the following officers were elected and duly installed for the ensuing year: W Aschenheim Pr; B W Helman V Pr., S Schloss, R S; R Wertheimer F S; M Mabowansky Tr; J Freiman A M; J Harris, W J Bergman G S; M Lyon Joseph Kohn and L Kohn, Trustees.

GRAND JURY.—The grand jury summoned by the Circuit Court did not meet yesterday morning. It was found that all the members were present but one who had taken his family on a pleasure trip to the mountains. The Sheriff was sent after the absentee and the jury was instructed to meet on Friday morning.

THE 'AUGUSTA.'—The tile schooner Augusta belonging to Walter M H... will be ready to be relaunched in a week. Work is progressing as rapidly as possible. When ready to sail she will be considerably ... in length breadth and depth of hold and will be ... the morning ... to brig.

U S GRAND J...—The ... grand jury was in session most of yesterday and last evening. The result of their investigations is not known and will not be until this morning.

EXPECTED.—The steamer ..., which ... on a rock some weeks ago near Victoria has been repaired probably by this time. She is expected to arrive at this port at any hour.

COMMON COUNCIL

REGULAR MEETING—JULY 10 1872

The Common Council met last evening at the Chamber ... o'clock, Mayor Wasserman presiding.

Present—Councilmen ... Hallock, Moreland and ...

Minutes of the last meeting read and approved.

[illegible]

... At your last meeting ... in conformity with the Charter ... the appointment of several Standing Committees ... as Chairman of one Committee and ... member from each Ward on each Committee ... my best judgment ... with reference to their being ... the work required in the necessary amount of time without serious inconvenience to themselves and their fitness generally. I beg leave to earnestly protest against your action in setting aside these appointments and making others thereby placing me in the position of being to a certain extent responsible for the doings of Committees with whom I cannot act in concert. Justice to myself and a regard for the rights of my successor in office will compel me after a reasonable delay to tender to you my resignation if for reasons of a personal nature it is your desire to curtail the powers and prerogatives usually accorded to a presiding officer in this respect.

Respectfully &c

PHILIP WASSERMAN Mayor

On motion, the above communication was placed on file.

PETITIONS

A petition was read from John Green and others in relation to the extension and alteration of the grade on Twelfth street between E and I. The petition was referred to the Committee on Streets and Public Property.

A petition was read from L Delschneider and fifteen others. The petition stated that there was a building situated near the corner of College and Water streets, which was used as a curing house for skins and hides that in consequence of the stench which arose from it, a nuisance was created in the whole neighborhood. The petitioners asked for the passage of an ordinance which would remove the nuisance at once. The matter was referred to the Committee on Health and Police.

A petition was read from Councilman Story desiring a leave of absence from the Council for six weeks. Leave was granted.

A lengthy petition from W W Chapman President of the Portland, Dalles and Salt Lake Railroad Company, protesting against the passage of an ordinance granting a franchise to H R Leonard & Co to construct a bridge across the river. The petition was referred to the Committee on Judiciary.

REPORTS

A report was received from the Committee on Judiciary recommending the payment of $30 85 to Charles W Parrish, late County Clerk for costs accruing in the case of Kingsley & Toner vs the City of Portland. Report adopted and warrant ordered drawn in favor of the claim.

The report of the City Treasurer for the quarter ending June 30th. Report read and on motion was referred to the Committee on Ways and Means.

The semi annual report of the Auditor and Clerk was read and referred to the Committee on Ways and Means.

The Auditor gave notice that eight suits had been commenced against the city for the recovery of wages alleged to have been earned by numerous persons who had acted as special policemen at the late State election.

On motion of Councilman Moreland the matter was referred to the City Attorney with instructions for that officer to defend the city.

CLAIMS

The following claims against the city were audited, and warrants ordered drawn in favor of the same: Bancroft & Morse, stationery etc $250; Gill & Steel, stationery, $10 65; H L Pittock for advertising ordinances, $9 60; Himes & Bachelder $4 50; Clarke, Henderson & Cook, $3 37; W Geller $62; Portland Gas Company, $522 50; J J Robinson, $339 50; C H Myers, $29; Portland Gas Co, $8 35; J H Butler, $24; W Washer, $16; C H Myers, $25; W J Wiggs $5; W Washer, $35; Smith Bros, $4; T M Temple, $1 75; Willamette Iron Works, $9 81; F W Chambus, $4; A Hamilton, $136 70.

ORDINANCES

An ordinance from the Committee on Ways and Means, recommending an appropriation out of the general fund to supply certain deficiencies read first, second and third time and passed.

An ordinance from the Committee on Streets and Public Property recommending the time and manner of improving Caruthers street from South Front to South Fourth read first, second and third time and passed.

An ordinance from the same committee recommending an appropriation out of the funds in the treasury for the improvement of Caruthers street read first second and third time and passed.

An ordinance from the same committee recommending the time and manner of improving that part of North Second street, between A and G, read first time and referred to the Committee on Streets and Public Property, for correction and revision.

An ordinance from the same committee providing for the time and manner of improving Jefferson street between Front and Second read first second and third time and passed.

An ordinance from Councilman Hill in relation to the lighting of the city clock read first and second time and laid over.

An ordinance entitled an ordinance adopting the report of the City Surveyor in relation to the extension of Columbia street passed.

An ordinance to establish certain grades passed.

RESOLUTIONS

A resolution from the Committee on Streets and Public Property giving notice of an intention to improve that part of Sixth street between Pine and College adopted.

A resolution from the same Committee giving notice likewise for the improvement of Third street between Mill and Montgomery.

A resolution that the Committee on Streets and Public Property be authorized to contract for the necessary amount of furniture, etc, required to furnish the new Police Court building adopted.

A resolution from Councilman ... in reference to the ... streets referred to ... and Public Property.

On motion the Council adjourned.

AMUSEMENTS.

ORO FINO THEATER.—This place of amusement will be open this evening on the occasion of the joint benefit of Richard Clinton and Jas. Lawlor. Mr Clinton is too well known here to require any recommendation at our hands. He has been connected during the past three years with the Bates Troupe, subsequently with the Pixley Troupe, and for the last eight months has been an active, efficient and we may add favorite member of Waldron's Dramatic Company. "Dick" is comparatively a young artiste in the profession he has chosen, and is an actor of much promise. He is careful pains taking, always endeavoring to please and has a kind word and a pleasant smile for every one. Mr Lawlor the other recipient has been engaged for some month as Treasurer to the Waldron Troupe which position he has filled with credit and satisfaction to his employer. A good variety bill will be presented.

SATURDAY EVENING.—J H Robinson an old pioneer actor on this coast has been tendered a grand complimentary benefit at Oro Fino Theater on Saturday evening by a host of friends. See advertisement and signatures attached.

PLANTATION BITTERS!
S. T.--1860--X.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates tropical, temperate or frigid it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

NEWSPAPERARCHIVE®

The Laborer's Friend.

From the Philadelphia Press.

Senator Wilson is evidently about the strongest man who could have been nominated on our ticket with Grant. His personal character is so high and his record so clear, creditable, and honorable, that actually the only thing the opposition can allege against him is that some twenty years ago he exhibited some leanings toward Know-Nothingism.

The Native American party, which flourished for a brief period, and rose to much national importance, was [illegible] ly without a single [illegible] vestige behind. It absorbed portions both of the old Whig and Democratic parties, and many of the ablest and most trusted Democratic leaders of to-day, including such men as Hon. James Brooks, of New York, were among those at the head of it.

If Senator Wilson ever sided with the Know-Nothings, the fact cannot militate against him now. Why, nobody has less faith in General Grant's loyalty to Republicanism because years ago, when parties were divided by different issues than those now existing, he was a Democrat. And Horace Greeley is not likely to receive any fewer votes for the Presidency because he was once captivated with Fourierism.

No man in the nation has proved his regard for the working people—for the lowly masses of all races—in a more earnest, consistent, practical, impartial manner than Henry Wilson, of Massachusetts. He has obtained a national reputation for Christian philanthropy and benevolent sympathy with the oppressed by whatever cause. He has won the warmest regard of the laboring classes throughout the Union, and it was mainly out of regard for their strongly expressed preferences for him that he was given the nomination for the Vice Presidency over that able, upright, and patriotic statesman, Hon. Schuyler Colfax.

Whatever probationary period he may have thought, twenty years ago, to be advisable as a preparation for the priceless boon of American citizenship, no man can say that Henry Wilson ever manifested any hostility to our foreign born population, either by word or deed, or that any statesman in the country has done more toward the amelioration of their condition both physical and moral.

A Washington paper gives an instance of Senator Wilson's liberality, which illustrates his character better than a volume of panegyric. The truth of the incident is personally vouched for by the editor. It is as follows:

A young Irish American, a Mr. Murphy, from New York, residing in a Democratic district, his relatives all Democrats, and, for aught we know, a Democrat himself, without any political influence or pressure to aid him, was here in great disappointment, he having failed in his French examination at the West Point Academy, where he had been appointed a cadet. For some reason, we think on account of his age, he could not be readmitted to West Point, and therefore could not get his much-hoped-for prize—a commission in the United States army.

After trying several others in vain, and when almost despairing of success, some friends thought Henry Wilson would aid the (to him) unknown young man if he knew his position. Three young Irishmen at once went to Mr. Wilson's room and found him, with his valise packed up, all ready to go to the New York train, and very busy. Fate seemed against the young friend whose cause they wished to plead, and they had no hopes, but determined, however, to try. This malevolent Know-Nothing, Senator Wilson, heard their story, became as desirous as they for their friend's success, and said: "Well, if anything can be done it must be at once. I will go right away and see the President about it." To the surprise and gratification of the young men, he started at once for the Executive Mansion (when he had barely time enough to return for the New York train), and became the representative and pleader of the young Irishman who had met with so many rebuffs from other quarters. The result of his efforts for Young Murphy, who, by the West Point rules, could not be readmitted, was an order from the President to to have him commissioned to the first vacancy in the Marine Corps.

Curious Case.

A GOLD PEN WORKING ITS WAY THROUGH A MAN'S BODY.

[From the Genesseo Republic.]

For three weeks past Major Morderwell had no doubt that he had a very sore and troublesome boil on his neck, and has called it accordingly; but disclosures demonstrated that it was something else. A few mornings since a piece of a gold pen, a quarter of an inch or more across it, issued from the sore supposed to be a boil. And this is the reason of this strange and uncommon occurrence. In a severe battle in Tennessee Major Morderwell was shot squarely through his body; the ball entered his stomach and came out of the back close to the spinal column. He was one of only six so shot during the war who survived it. The ball carried along with it a gold pen and the larger part of a silver pencase which were in the Major's vest pocket at the time, and that's what's been troubling him. The first proof he had of the fact that he was carrying his pen and case under his cuticle—though he had always wondered where they could have gone to—was when a doctor, long after he was shot, laid open the skin on his ribs and took out two pieces of the silver case, about an inch and a half long, welded together in the shape of a cross. Since then seven other pieces have been taken out of him, the eighth being that removed last week. The Major hopes and believes that the most of his gold pen and case has worked its way out of him by this time, for it seems as though enough of it has got through his skin to set up a man in the jewelry business. It seems strange that such a thing can be, and not kill a person. How could that jagged, sharp piece of gold pen work its way from the stomach to the back of the neck, and touch no vital point? Where has it been all these years?

Election, Tuesday, Nov. 5, 1872.

NATIONAL REPUBLICAN PLATFORM

ADOPTED BY THE REPUBLICAN NATIONAL CONVENTION [illegible] PHILADELPHIA, JUNE [illegible], 1872.

The Republican Party of the United States, assembled in National Convention in the city of Philadelphia on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated four millions of slaves, decreed the equal citizenship of all, and established universal suffrage. Exhibiting unparalleled magnanimity, it criminally punished no one for political offenses, and has warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It initiated a new policy toward the Indians, the Pacific Railroad and similar vast enterprises have been generously aided and successfully conducted to completion, its public lands have been freely given to actual settlers, immigration has been protected and encouraged, and a full acknowledgment of the rights of naturalized citizens secured from European powers. In the form of National currency it has provided for the National credit, and sustained it under the most extraordinary burdens. It has negotiated new bonds at lower rates of interest. The revenues have been carefully collected and honestly applied. Despite the annual large reductions of the rate of taxation, the public debt has been reduced during U. S. Grant's Presidency at the rate of $100,000,000 a year. A great financial crisis has been averted, and peace and plenty prevail throughout the land. Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the Nation kept in a high position throughout the world. This glorious record of the past is the party's best pledge for the future, and we believe that the people will not entrust the government to any party or combination of men, composed of those who chiefly have resisted every step in this beneficent progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and Federal legislation. Neither law nor its administration should admit of any discrimination in respect to citizens by reason of race, creed, color, or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained because they are right, not merely tolerated because they are law, and should be carried out according to their spirit by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured the amendments.

4. The National Government seeks to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the Government are considered rewards for mere party zeal, is fatally demoralizing, and we therefore favor a reform of the system, by a law which shall abolish the evils of patronage and make honesty, efficiency and fidelity the essential qualifications for public position, without practically creating a lifetenure of office.

6. We are opposed to further grants of public lands to corporations and monopolies, and demand that the National domain be set apart for free settlement by the people.

7. The annual revenue, after paying current debts should furnish a moderate balance for the reduction of the principal of the public debt, and except so much as may be derived from a tax on tobacco and liquors, be raised by duties on importations, which should be adjusted to aid in securing remunerative wages to labor, and to promote the industries and growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for the country are entitled to the care of a generous and grateful people. We favor such additional legislation as will extend the bounty of the Government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to length of service or the cause of such discharge.

9. The doctrine of Great Britain and other European powers concerning allegiance, once a subject always a subject, having at last, through the efforts of the Republican party, been abandoned, and the American idea of the right of an individual to transfer his allegiance having been accepted by European nations, it is the duty of our Government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former Government, and we urge a continued and careful encouragement and protection to voluntary emigration.

10. The franking privilege ought to be abolished and a way proposed for reductions in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of shaping legislation so as to secure a full protection and ample field for capital, and for labor which creates capital, the largest opportunities and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an important duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions and for the protection of the ballot, and therefore they are entitled to the thanks of the Nation.

13. We denounce the repudiation of public debts, in any form or disguise, as a national crime. We witness with pride the reduction of the principal of that debt, and of the rates of interest upon the balance, and confidently expect that our excellent national currency will be perfected by a speedy resumption to specie payment.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, their application for admission to further usefulness is received with satisfaction, and the honest demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve of the action of Congress in granting amnesty to those engaged in the rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party proposes to respect all rights reserved by the people to themselves, as carefully as the powers delegated by them to the State and Territorial governments. It disapproves of asserting constitutional laws for the purpose of removing evils by the interference with rights not surrendered by the people to either the State or National Government.

17. It is the duty of the General Government to adopt such measures as will tend to encourage American commerce and ship-building.

18. We believe that the modest patriotism, the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustrious services of U. S. Grant have commended him to the heart of the American people, and with him at our head we start to-day on a new march to victory.

PROSPECTUS.

THE THROUGH LINE!

A RAILROAD JOURNAL, TO BE PUBLISHED weekly, in the city of Portland, Oregon, devoted to the interests of railroads and kindred subjects, and especially to the success of the

Portland, Dalles and Salt Lake Railroad.

In the interest of this road we have already made one campaign, whereby, against great odds, our efforts have been crowned with a fair measure of success. It is now a fixed fact, recognized by the Government, and becoming attractive to men of capital and influence.

With the issuance of this prospectus we enter upon a second campaign, in which the friends of the great work will find it profitable to be united, firm and persistent.

We shall early discuss the subject of legitimate and reasonable State aid in the prosecution of the work, and as an endorsement of the importance of this deservedly popular enterprise.

Preparatory to a renewal of our efforts at the next session of Congress, we shall fully discuss the nature and local importance of the Portland, Dalles and Salt Lake Railroad, and through the instrumentality of *The Through Line* familiarize members of Congress and the American public with the subject in all its bearings. The discussion will cover the whole ground, and no fact or matter which may be deemed of importance will be allowed to pass unnoticed.

The successful completion of the railroads embraced in the system of the Pacific Northwest, we shall give our hearty support in all that is fair and just, and especially shall we endeavor to keep alive and make useful that public sentiment in Oregon everywhere manifested in behalf of the Portland, Dalles and Salt Lake Railroad.

Our knowledge of the several roads embraced in this system, their origin and progress, the various laws that have been passed concerning them, and the country through which they pass, will enable us to give, from time to time, to the American and European reader valuable and important information in this connection.

Our friends should be especially vigilant in getting subscribers and giving *The Through Line* a wide circulation. We have made arrangements to put in circulation, and shall employ a competent assistant in the Editorial Department. It will be a twenty column paper, and the first number will be issued on or about the 20th of July inst. Subscription $2 50 per annum.

CITY ADVERTISEMENTS.

Ordinance No. 1182.

AN ORDINANCE AUTHORIZING H. R. LEONARD, his associates and assigns, to construct a bridge across the Willamette river, with diverging roadways and footways.

WHEREAS, The Congress of the United States [illegible] an Act giving the consent of the United States to the erection of a bridge across the Willamette river [illegible] east bank of said river, approved February 2, 1870 [illegible]

[illegible]

Clay and Salmon streets as may be most suitable for the erection of a bridge across the Willamette river, provided the Common Council shall grant permission to build a bridge as said [illegible] in the manner provided by said Act of Congress, and upon such terms and conditions as may be agreed upon.

Now, therefore, the city of Portland does ordain as follows:

Section 1. That in order to provide for the erection of a bridge across the Willamette river within the time and in accordance with the provisions specified in an Act of Congress entitled "An Act giving the consent of the United States to the erection of a bridge across the Willamette river, in Oregon, from the city of Portland to the east bank of said river," approved February 2, 1870, the consent of the city of Portland is hereby given to H. R. Leonard, his associates and assigns, to build and erect their railroad bridge, with diverging roadways and footways and double draws over and across the Willamette river, between the city of Portland and the east bank of said river, upon the terms and conditions in this Ordinance set forth and provided.

Section 2. Said H. R. Leonard and his associates and assigns shall, within one month from the date of this Ordinance, present to the Common Council a detailed map of the river at the proposed site of the bridge and for the distance of one mile above and below the site, exhibiting the depths and currents at all points of the same, and the Common Council, if satisfied that the proposed location is such that said bridge when built will not obstruct, impair or injuriously modify the navigation of the river, or cause any street or streets in the city of Portland, nor render necessary any change of the established grade of any street or streets, to the injury thereof, shall certify the same to the Secretary of War [illegible]

Section 3. At or before the time of presenting a map of the proposed site of the bridge, as provided in Section two of this Ordinance, the said H. R. Leonard and his associates and assigns shall also furnish to the Common Council a detailed plan of said proposed bridge, which shall provide for a bridge with double footways and carriageways, double draws, and of sufficient width to accommodate the public travel, and also to provide for a railway track of the standard width, to allow of the passage of the running upon what is known as the broad gauge. That part of the bridge to be used for railway track shall be so arranged as not to interfere in any manner with the carriage or footways. Said plan shall state the height, width, length, span, dimensions of piers, the drawers, the sectional weight that may be placed with safety upon that portion of the bridge intended for railway and upon any portion of said bridge, together with such other information as may be necessary to determine the strength and capacity of said bridge, the probability of the wants of the traveling public, and whether the said bridge will be unsafe, impair or injuriously modify the navigation of the river and said plan and specifications, if satisfactory to the Common Council, shall be by them approved and certified to the Secretary of War for his approval or rejection, as provided in the Act of Congress.

Section 4. Within ten days after receiving notice of the approval of the Secretary of War of the plan and location of said bridge, the said H. R. Leonard and his associates and assigns shall proceed to the construction of said bridge, conforming strictly to the approved plan and location, and not otherwise, and shall complete the same within one year from the date of said approval, provided that if the building of any part of that portion of the bridge intended for a railway track can be postponed until such time as the same may be needed for use, without materially affecting the strength or capacity of the bridge for other travel, the said H. R. Leonard and his associates and assigns are authorized to omit the building of that portion, subject to the approval of the Secretary of War.

Section 5. In case the construction of any part of that portion of the bridge intended for railroad purposes is postponed as provided in Section four (4) of this Ordinance, the necessary work for the completion thereof shall be commenced as soon as practicable after receiving notice from any railroad company needing and wishing to use the same, or from the Common Council, and the work shall be completed in accordance with the original plan, without unnecessary delay.

Section 6. Upon producing satisfactory evidence to the Common Council that the roadways and footways of said bridge are completed in conformity with the original plan, and are in all respects safe and ready for travel, the said H. R. Leonard, his associates and assigns, shall open the same and keep said roadway and footway open at all times, except when absolutely necessary to close the same or any portion thereof for repairs, and the said H. R. Leonard and his associates and assigns shall keep said bridge and every portion thereof in good condition and safe for public travel while the same may stand.

Section 7. So far as the Common Council has the right to fix the same, the said H. R. Leonard and his associates and assigns are authorized to charge and collect tolls for crossing said bridge at not to exceed the following rates:

For each foot passenger, five cents [illegible]

For each head of loose cattle, horses or mules, [illegible]

For each vehicle other than a dray or truck, including driver, drawn by one animal, 25c.

For each dray or truck, loaded or unloaded, drawn by one animal, twenty-five cents.

For each vehicle other than a dray or truck, loaded or unloaded, including driver, drawn by two animals twenty-five cents.

[illegible]

Six per cent besides the driver in a vehicle [illegible] carrying passengers [illegible]

For each hundred [illegible] passengers, three cents.

Provided that nothing herein contained shall be so construed to apply to that portion of the bridge intended for railway purposes, and provided further, that after the expiration of seven years from the time of opening said bridge for travel, the rates of toll above named may be reviewed or modified in the manner hereinafter provided.

Section 8. After the expiration of seven years from the time of completion and opening of said bridge, as heretofore provided, the said H. R. Leonard and his associates and assigns shall present to the Common Council a statement verified by the accounting officer or officers of said H. R. Leonard and his associates and assigns, showing the gross receipts of said parties from the roadways and footways of said bridge, the actual expenses thereof, including repairs and the net receipts of said H. R. Leonard and his associates and assigns from said roadways and footways for the year next preceding the date thereof, and shall annually thereafter make a like statement, but no dividend on any part thereof paid or declared during the year or at any time prior thereto, shall be included in the statement of expenditures; and whenever the gross receipts upon said roadways and footways, as above stated, for one year, shall exceed the necessary expenses of said H. R. Leonard and his associates and assigns, by a sum equal to twenty-five per cent upon the actual cost of erecting said bridge then and in that case the rates of toll shall be so revised that the net annual income of said H. R. Leonard and his associates and assigns from said roadways and footways shall be as near as possible equal to such percentage upon said actual cost.

Section 9. The said H. R. Leonard and his associates and assigns shall at all times during the existence of said bridge provide for the free passage of all steamers, sailing vessels and boats of any kind or description, and it is made a condition of the grant that the said H. R. Leonard and his associates and assigns shall provide that the draws shall be readily opened and opened for the speedy and free passage of all such vessels [illegible] and the Common Council reserves the right to make rules and regulations [illegible] and relating to [illegible] as may be deemed necessary.

Section 10. That, [illegible] to avail themselves of the provisions of this Ordinance, the said H. R. Leonard and his associates and assigns shall within ten days after receipt of notice of the approval of the plans by the Secretary of War, accept the provisions in this ordinance and enter into [illegible] agreement [illegible] with the Common Council [illegible] the said H. R. Leonard and his associates and assigns [illegible]

[illegible]

Section 11. [illegible] H. R. Leonard and his associates [illegible] to make the surveys and [illegible] for said bridge [illegible] the building thereof [illegible] complete the same within the time and in the manner specified in this ordinance [illegible] Section [illegible] of this ordinance shall be null

and void, and the Common Council shall declare the same, and all the rights and privileges accruing to said H. R. Leonard and his associates and assigns shall be forfeited to the said H. R. Leonard and his associates and assigns.

Section 12. The bridge proposed by this Ordinance shall be a [illegible] [illegible]

Sec. 3. Upon the expiration of five days from the giving of such notice, or before the selling of any such animal, as hereinafter provided, the owner of any such animal or animals, or his legal representatives, shall claim the animal and pay all legal costs, charges and expenses for taking up and keeping, the Chief of Police shall deliver up such animal or animals to such owner or his representatives.

Sec. 4. If any such animal or animals shall not be claimed before the expiration of five days from the giving of such notice the Chief of Police shall proceed to sell the same at public auction to the highest bidder for cash, having first given notice of the time and place of such sale, in a daily newspaper published in the city, for at least forty-eight hours prior to the time of sale, and after deducting his legal fees and all costs, charges and expenses of taking up, keeping and selling shall pay the proceeds into the City Treasury.

Sec. 5. The Chief of Police besides the cost of keeping any such animal or animals shall be entitled to and receive [illegible] fees [illegible] for each animal so taken up, and ten per centum of the proceeds of all sales where the amount shall not exceed twenty-five (25) dollars, and five per cent when the amount of such proceeds shall exceed such sum.

Sec. 6. If the owner of any property so sold, or his legal representatives, shall at any time within one year of the sale make satisfactory proof of his ownership to [illegible] he shall be entitled to receive such proceeds deposited in the Treasury.

Sec. 7. Ordinance number [illegible] entitled "An ordinance to prevent cattle or horses from running at large within the limits of the city of Portland," and ordinances amendatory thereto and all other ordinances or parts of ordinances conflicting herewith, are hereby repealed.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1844, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal [illegible] of Europe, and has resumed practice at his D[ispensary] [illegible] Kearny street, corner of Commercial, San F[rancisco], where his old patients and those requiring his [illegible] may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, [illegible] ted and disfigured faces and their broken-down [illegible] tions, disqualifying them for the happiness of [illegible] or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let [illegible] guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies [illegible] that they are cured for and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the [illegible] of their friends, to be careful of the many pre[tended] doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific [illegible] measures, viz: Sallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, [illegible] about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night [illegible] monomania and frequent insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and sci[entific] mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove [illegible] to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin in a [illegible] letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and [illegible] who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. The only way to avoid imposition is to make inquiry. It will cost you nothing, and may save you many regrets, for, as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.
